

## NYC H+H Unit vs. Lab Collection Tip Sheet- Billie Jean King Medical Center

### Workflow details

**Unit collect workflow:**

Print Label task will appear in the Worklist. Click *Print Label* . Lab labels print to the floor from Cerner (about a 90 second delay). Collect task will appear in the Worklist. Complete collection.

### Frequency Selected

### Outcome

**AM Draw** - time defaults to next 0500

Defaults to Unit Collect

**STAT** - time defaults to "now"

Defaults to Unit Collect

**Once** - time defaults to "now"

Defaults to Unit Collect

**Add-On** - time defaults to "now"

After calling the Lab to determine if existing specimen is viable, you may select **Add-On** to order an additional lab test.

**Now(Routine)**- time defaults to "now"

This defaults to Unit collect so that the lab can be drawn right away. This will be processed as a Routine in the Lab.

### Key Points

AM Draw must be entered before **0400**. Any AM Draw order placed after 0500 will default to the following day.
