

Collecting COVID-19 Labs in H2O

This tipsheet displays how to document collection for COVID-19 labs in H2O. There is a separate tipsheet on ordering COVID-19 Labs and Isolation using the newly created order panel. Click the following hyperlink if you are viewing this document electronically: [COVID-19 Testing Panel Ordering](#). If you are not viewing this document electronically, refer to your learning home dashboard or the H2O training sharepoint for more information on COVID-19 lab ordering.

Try It Out:

1. Go to the **Work List** activity. This applies to both nurses and providers.
2. Click **Print Label** for the COVID-19 Test you are collecting.

The screenshot shows the 'Work List Tasks' interface. The left sidebar has a 'Work List' button circled in red with a '1'. The main area shows a table of tasks. The second task is '1432 Print Label for LabCorp COVID-19 Test (SO) - Nasopharyngeal & Oropharyngeal' with a 'Print Label' button circled in red and labeled with a '2'.

Time	Task	Priority	Actions
MULTISTEP			
1433	Place Patient in Airborne and Contact and Eye Protection Isolation Status	Routine	Patient Isolation
MULTISTEP COLLECTION			
1432	Print Label for LabCorp COVID-19 Test (SO) - Nasopharyngeal & Oropharyngeal	Routine	Print Label

3. After the label is printed, click **Collect** in the Work List activity to document the collection information.

The screenshot shows the 'Work List Tasks' interface. The main area shows a table of tasks. The second task is '1432 Collect LabCorp COVID-19 Test (SO) - Nasopharyngeal & Oropharyngeal' with a 'Collect' button circled in red and labeled with a '3'.

Time	Task	Priority	Actions
MULTISTEP			
1433	Place Patient in Airborne and Contact and Eye Protection Isolation Status	Routine	Patient Isolation
MULTISTEP COLLECTION			
1432	Collect LabCorp COVID-19 Test (SO) - Nasopharyngeal & Oropharyngeal	Routine	Collect

4. **Scan** the patient's identification bracelet.
