

COVID-19 Personal Protective Equipment Recommendations for Hotel Staff

Staff	PPE	Comment
<p>Security/Front Desk</p>	 <p>A diagram of a person wearing a blue surgical mask. A callout bubble points to the mask with the text 'SURGICAL MASK'.</p>	<ul style="list-style-type: none"> • Clean hands before & after touching mask. • Avoid touching outer area of mask. • Store mask safely and in a clean paper bag or container if planned for reuse throughout the shift. • Discard mask if it becomes wet or contaminated. • Gloves as needed if touching client belongings
<p>Wellness Coordinators Or Hall Monitors</p>	 <p>A diagram of a person wearing a blue surgical mask, green eye protection (face shield or goggles), and green gloves. Callout bubbles point to each item with the following text: 'SURGICAL MASK', 'EYE PROTECTION (FACE SHIELD OR GOGGLES IF SPLASH RISK)', and '1 PAIR OF NON-STERILE GLOVES'.</p>	<p>In addition to the above:</p> <ul style="list-style-type: none"> • Eye protection (face shield or goggles) • Staff should wear gloves for contact with clients or their environment • Always perform hand hygiene after removing gloves.
<p>Clinical Staff Or Staff Entering Room</p>	 <p>A diagram of a person wearing a blue isolation gown, green eye protection, green gloves, and a blue surgical or procedure mask. Callout bubbles point to each item with the following text: 'SURGICAL OR PROCEDURE MASK OR N95 RESPIRATOR', 'EYE PROTECTION (FACE SHIELD OR GOGGLES IF SPLASH RISK)', 'ISOLATION GOWN', and '1 PAIR OF NON-STERILE GLOVES'.</p>	<ul style="list-style-type: none"> • At a minimum, staff should wear facemask, eye protection and gloves while in the client care area. • N95 Respirators should be prioritized for aerosol generating procedures. • Gowns should be prioritized for: <ul style="list-style-type: none"> ➢ Aerosol generating procedures ➢ Care activities where splashes and sprays are anticipated ➢ High-contact client care activities that provide opportunities for transfer of pathogens to the hands and clothing of HCP (e.g., dressing, bathing/showering, transferring, providing hygiene, changing linens, changing briefs or assisting with toileting, device care or use, wound care)

EVS/Housekeeping

- Staff should wear gown, gloves, eye protection, and N95 respirator due to the high risk of transfer of pathogens to hands and clothing, and the potential of aerosolization during cleaning and disinfection of environment.
