

Sequential Organ Failure Assessment (SOFA) Scoring system

This tipsheet reviews the SOFA patient list columns and reports.

Try It Out:

1. In the patient list, users can add the SOFA related columns seen below into their My Lists.
2. There is also a SOFA report available in the patient list reporting toolbar. The report displays the SOFA score, the systems evaluated to create the score, and the trending graph for the past 72 hrs.

SOFA Testing 38 Patients Refreshed just now Search Current Location

Patient	Unit/Room/Bed	MRN	SOFA	SOFA Score Changed Column	SOFA Score Column	SOFA Time Since Reviewed Column

- The icon columns in the patient list are combined into a single column to save space in the patient list. You can “hover to discover” the system and the score that was evaluated for it.

- The SOFA report has also been added to the “Sidebar” for easier access.

The screenshot displays a clinical dashboard with the following components:

- Summary Panel:** Includes sections for 'Isolation and Infection Instructions', 'BestPractice Advisories', and 'Vital Signs'. The 'Vital Signs' section features a line graph with data points for BP (mmHg), Temp (°F), Heart Rate, Resp, and SpO2 (%) over time.
- Notes from Clinical Staff:** A section for viewing clinical notes.
- Sidebar (Right):** Contains a 'SOFA' report showing a score of 3, last reviewed by Amit Uppal, MD on 03/24/20 17:28. Below it is an 'Acuity Trending (Last 72 hours)' report showing a score of 3, with a last filed score of 3 on 03/24/20 17:19.
