### **Point of Entry Screening – Now Includes Vaccine Status, Continues to be Required**

In an ongoing effort to protect our employees, patients, visitors and guests, and to prevent the spread of COVID-19, effective Monday, September 27, 2021, the Staff Point of Entry Screening for COVID-19 (POE) will now include vaccination status. This new addition to the POE Screening for COVID-19 will help us ensure all those entering any NYC Health + Hospitals facility are fully vaccinated by showing a green entry. Any employee using the POE on their mobile device, must have DUO installed.

All NYC Health + Hospitals employees must complete the POE screening questionnaire before entering our health system hospitals, Gotham Health centers and Central Office worksites. The POE can be accessed from a computer or personal device. This new safety measure is in conjunction with the COVID-19 Vaccine Mandate. [Access the POE Screening tool here](#).
