

Todd

Head Nurse, Post-Anesthesia Care Unit (PACU)

NYC Health + Hospitals | Bellevue

I'm reading multiple articles about the reluctance of healthcare workers to receive a COVID vaccine when one becomes available. What kind of public relations planning is Health and Hospitals preparing to counter this resistance for both healthcare workers and the community?

- Heath + Hospitals system will be doing extensive outreach and communications to our staff and
- We'll also be working closely with the City Dept of Health and the vaccine manufacturers who will be developing an awareness campaign about the safety and efficacy of the vaccine directed to the public as well as to health care providers

Kyle

Coney Island Hospital

Psychologist

I am trying to find out what the process is to get COVID testing for CIH employees. I looked on the website and couldn't find any information other than what is available to the general public.

NYCH+H COVID-19 testing sites. There are many and they are open 7days a week.

# Q&A Are we in Wave 2?

## Recent trend:

We need to drive numbers down NOW

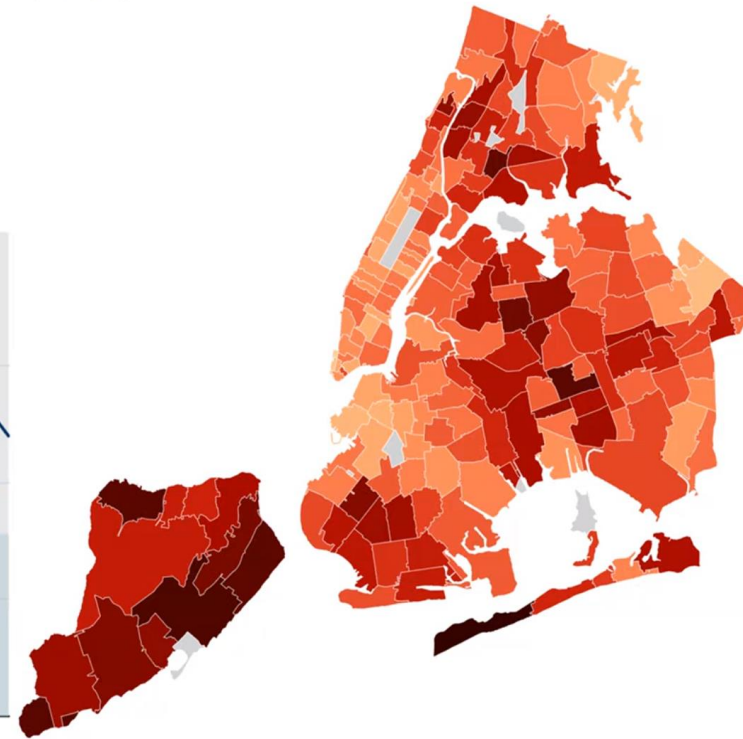

- Driving these cases/percent positivity down is key to keeping NYC open

Citywide: cases

Trend line: Seven-day average is the average of the date noted and the six prior days.  
Gray bar indicates data from more recent days are incomplete.

7-day percent positive  
0 2 4 6

[DOHMH data page](#)

## What we know about how transmission is more likely to occur:

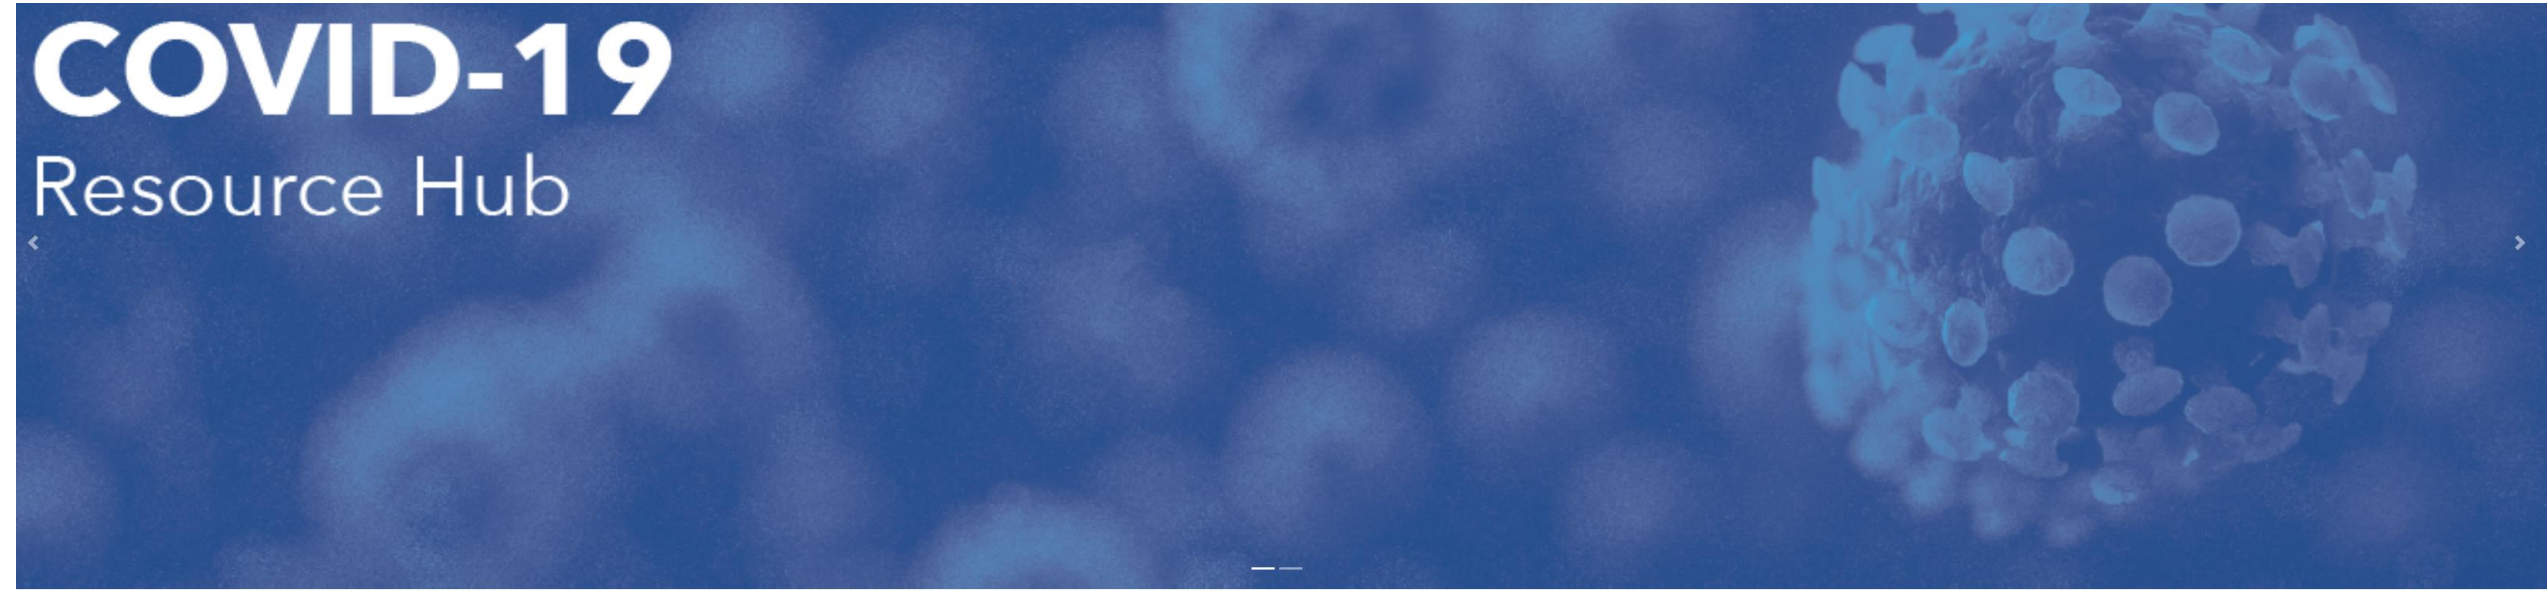

- **Indoors without masks, especially gatherings**
  - COVID fatigue
- **Household spread: 80% of reported close contacts are family members**
- **Travel to and from areas with higher COVID-19 transmission**

## Follow the COVID 4 Pillars

- STAY HOME WHEN SICK
- USE FACE COVERINGS
- HAND WASH
- AVOID CROWDS

## 2 ADDITIONAL

- GET TESTED
- AVOID TRAVEL
