

DOC ID HHCMPA192020	Effective Date: June 4,	Page 1 of 5
	2020	

Purpose	To provide guidance for staff within clinical and non-clinical workplaces on maintaining physical distancing and workplace etiquette.			
Scope	NYC Health + Hospitals healthcare facilities			
Definitions	ocial distancing, also called "physical distancing," means keeping space etween yourself and other people, at minimum 6 feet.			
Recommendations	Point of Entry			
	Considerations for Patient Care Areas			
	<ul> <li>Limit points of entry to facility</li> <li>Enforce facemasks for patients and visitors</li> </ul>			
	<ul> <li>Enforce facemasks for patients and visitors.</li> <li>Limit and organize seating in waiting and registration areas to</li> </ul>			
	maintain appropriate distance of 6 ft.			
	• Place markers on the floor to maintain 6 ft distance in waiting lines.			
	<ul> <li>Place visual posters and reminders in multiple languages on</li> </ul>			
	respiratory etiquette, and maintaining physical distancing			
	<ul> <li>Actively screen everyone for fever and symptoms of COVID-19 before they enter the healthcare facility.</li> </ul>			
	<ul> <li>Place a staff member near all entrances (outdoors if weather and</li> </ul>			
	facility layout permit), or in waiting room area, to ensure patients are screened for symptoms and fever before entering the facility or treatment floor.			
	• Ensure symptom and travel screening is conducted for each patient			
	<ul> <li>and visitor:</li> <li>1) Does the patient have, or has been exposed to someone with the following symptoms: fever, cough, chills, headache, muscle ache, sore throat, loss of taste or smell</li> <li>OR</li> </ul>			
	Tested positive for COVID-19 in the last 14 days			
	<ul><li>2) Has the patient traveled:</li><li>a. Outside the US in the past 14 days?</li></ul>			
	b. Traveled to a US State or territory with sustained			
	community transmission of COVID-19 in past 14 days?			
	<ul> <li>Educate patients and visitors about the facility COVID surveillance policies. If sick, call before you come to the facility.</li> </ul>			

DOC ID HHCMPA192020	Effective Date: June 4,	Page 2 of 5
	2020	

	<ul> <li>Consider dedicating an area of the waiting area for symptomatic</li> </ul>
	patients and visitors
	<ul> <li>Make respiratory hygiene stations (tissue, masks, hand sanitizer)</li> </ul>
	easily available and encourage use.
	• Limit visitors (1 -2 at a time) use the hospital visitation pilot
	recommendations inform decisions.
	• For those staff who do not work on a clinical unit, their temperature
	and symptom inventory (risk assessment) will be taken upon arrival
	for their shift.
•	Considerations for Healthcare Workers, Staff & Vendors
	• Universal masking if coming within 6 feet of others including offices,
	elevators, stairs and common areas.
	<ul> <li>Ensure access to respiratory hygiene stations and hand sanitizer and</li> </ul>
	gloves, as needed.
	• Vendors shall continue to follow process entailed in the Guidance for
	Vendors and Contractors policy
	<ul> <li>Limit number of people in elevators to prevent crowding, use 6 ft</li> </ul>
	distancing rule.
Adr •	ministrative Environments Implement staggered work schedule and telecommuting.
•	Implement staggered work schedule and telecommuting.
•	Implement staggered work schedule and telecommuting. Ensure appropriate physical distance (at least 6 ft) between staff:

DOC ID HHCMPA192020	Effective Date: June 4,	Page 3 of 5
	2020	

	<ul> <li>Practice routine cleaning and disinfection of frequently touched surfaces (tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, sinks, ATMs, elevator</li> </ul>
	<ul> <li>buttons, vending machine buttons, etc.), break areas, and restrooms.</li> <li>For electronics, such as tablets, touch screens, keyboards, remote controls, consider putting a wipeable cover on electronics and follow manufacturer's instruction for cleaning and disinfecting. (Follow Use and Maintenance of Hospital-Issued Electronic Tablets, Appendix II)</li> </ul>
Limi	iting Cross Contamination
•	Limit cross contamination of desks or counters when masks are removed.
	<ul> <li>Avoid placing masks directly on shared surfaces.</li> </ul>
	• Consider placing masks in a paper bag or container when not in use.
	<ul> <li>Clean and disinfect common areas routinely</li> </ul>
•	Avoid readjusting or touching outer area of mask, if worn.
•	Do not bring personal belongings, food, or beverages in clinical and office
	areas.
•	In break areas within clinical settings:
	<ul> <li>Wear facemasks in break rooms or common areas.</li> </ul>
	<ul> <li>Do not wear gloves, gowns and shields in break rooms or common</li> </ul>
	areas.
	<ul> <li>Do not bring supplies or equipment into break rooms or common</li> </ul>
	areas.
•	Perform hand hygiene upon entering and exiting common areas.
Emr	bloyee Monitoring
•	All employees should self-monitor once a day (temperature, symptoms)
	whether at work or at home. If working >12 hour shift, check
	temperature twice, once at the start of the shift and once at the end. If
	symptoms develop at work, staff MUST immediately leave the patient
	care area or workplace environment, isolate, and notify their supervisor.
	Don facemask if not already wearing one.
Ple	ase refer to the GUIDANCE ON HEALTHCARE WORKER RETURN TO WORK
	LLOWING COVID-19 EXPOSURE OR INFECTION, found under Employee
	sources on the H+H COVID-19 intranet.

	Visitor Policy
	Outpatient clinics: Patients being seen in an outpatient/ambulatory care clinic or setting may be accompanied by no more than one adult support person (plus an aide, if required).
	<ul> <li>Inpatient units: To limit the spread of COVID-19, in-person visits will not be allowed. At this time, we encourage patients and their families to communicate through phone and video chat. Exceptions may be made on a case-by-case basis for the following:</li> <li>Children admitted to the hospital</li> <li>Maternity units</li> <li>Breastfeeding moms of NICU patients and one additional parent at discharge visit only</li> <li>Patients receiving end-of-life/palliative care</li> </ul>

## **APPENDIX I: Environmental Services Cleaning Frequency**

In order to reduce the risk of transmission of COVID-19 in public spaces of NYC H+H, increased cleaning and disinfection of the environment has been implemented.

AREA/ACTIVITY	FREQUENCY	PROCESS	CLEANING PRODUCTS	
Isolation Room Discharge Cleaning	As Needed	10 Step Cleaning Protocol	PDI Orange Top Bleach Wipes for All Surfaces; Peridox for Floors	
Public Restroom	Hourly on 7a-3p and 3p-11p; 2 x on 11p-7a (18 x per day)	Sanitizing of high touch surfaces (door knob/handle, light switches, hand rails, sink, faucets, soap dispensers, paper dispensers, handles on restroom stall doors)	PDI Orange Top Bleach Wipes	
Front Entrances/Lobbies	4 x per shift (12 x per day)	Sanitizing of high touch surfaces (door knob/handle, door push bar, hand rails, Purell dispensers, seats when appropriate, keyboard on ATM machines, elevator buttons both inside and out)	PDI Orange Top Bleach Wipes	
Elevators	Hourly on all shifts	Sanitize elevator buttons (both inside and outside of the elevator)	PDI Orange Top Bleach Wipes	
Waiting Rooms	6 x per shift (18 x per day)	Sanitizing of high touch surfaces (door knobs/handles, door push bars, hand rails, Purell dispensers, seats when available, furniture)	PDI Orange Top Bleach Wipes	
Staff Lounges	2 x per shift (6 x daily)	Sanitizing of high touch surfaces (door	PDI Orange Top Bleach Wipes	

		knobs/handles, light switches, table/counter tops, sinks, faucets, soap dispensers, paper dispensers, microwave door handles, refrigerator door handles, seats when available)	
Staff Locker Rooms	2 x per shift (6 x daily)	Sanitizing of high touch surfaces (door knobs/handles, light switches, table/counter tops, sinks, faucets, soap dispensers, paper dispensers, microwave door handles, refrigerator door handles, seats when available)	PDI Orange Top Bleach Wipes

#### Infection Prevention and Control Use and Maintenance of Hospital-Issued Electronic Tablets

#### Purpose:

To provide guidelines for the cleaning and disinfecting of shared hospital-issued electronic tablets and associated accessories to decrease the risk of spreading infection between patients and employees.

Scope:

This policy applies to all hospital-issued electronic tablets used at all NYC Health + Hospitals facilities.

### Policy:

Healthcare personnel will adhere to the appropriate use and cleaning of hospital-issued electronic tablets and associated accessories for shared patient use in an acute-care setting.

#### Definitions:

- Encased Tablets: Electronic device tablets with a protective case.
- Un-encased Tablets: Electronic device tablets without a protective case.
- Tablet Accessories: Tablet charger and tablet stand.

#### Procedure:

Disinfecting Encased Tablets and Tablet Accessories:

- Use Purple Top PDI wipes (WITHOUT BLEACH) to disinfect encased tablets and associated accessories before and after every patient-use according to the following steps:
  - 1. Don gloves
  - Ensure there is no visible soil present on the surface. If heavy soil is present (blood, dust, or other organic matter), use a wipe to remove all visible soil from the surfaces
  - 3. To disinfect, thoroughly wipe all surfaces (avoid getting moisture into tablet speakers or
    - charging port)
  - All surfaces must remain wet for a full two minutes; use additional wipes if needed to 4.
  - ensure two-minute wet time 5 Once two-minute wet time is completed, allow surfaces to air dry completely
  - Dispose of wipes and gloves in trash 6

Disinfecting Un-encased Tablets:

- Use 70% isopropyl alcohol wipe to disinfect un-encased tablets before and after every patient-use according to the following steps:
  - 1. Don gloves
  - Ensure there is no visible soil present on the surface. If heavy soil is present (blood, dust or other organic matter), use a wipe to remove all visible soil from the surfaces To disinfect, thoroughly wipe all surfaces for a minimum of 30 seconds (avoid getting 2
  - 3
  - moisture into tablet speakers or charging port) Allow surfaces to air dry completely
  - 4
  - 5. Dispose of wipes and gloves in trash

# APPENDIX III: Workplace Design – For all occupied buildings<sup>i</sup>

WAVES /	Occupancy / Spacing	Traffic	Other
PHASE		Flow	Recommendations
Public Areas / Waiting Areas	Limited,	Clear paths for ease	Remove furniture or adjust spacing
	C' annaing	of passing –attempt	to maintain 6' spacing; If furniture is to be
	6' spacing	to maintain	removed, ensure proper storage/disposal is
		6' apart	available; Remaining furniture should be vinyl
×			upholstery if possible; may use floor tape or
			signage to guide movement
Entrances / Exits		Signage driven	Provide covered trash receptacles for disposal
		instructions	of face masks near entrances and exits;
			disinfect and clean these daily
Cafeterias	Limited: 6'	Clear paths,	Limit number of occupants based on
	spacing between	spacing and	calculations using size of space
	seating and floor	directional signage	No salad bars or open access food –food
	marking	for circulation;	should be prepackaged or served by cafeteria
	for checkout lines		staff
			Consider monitoring of occupants at peak
			dining hours; Consider scheduled lunch
			periods e.g. floor by floor; Sanitizer stations
			outside rooms available for use upon entry;
			sneeze guards around cashier
			stations; Remove furniture or adjust spacing
			to maintain 6' spacing; If furniture is to be
			removed, ensure proper storage/disposal is
			available; Remaining furniture should be vinyl
			upholstery if possible; Provide signage to
			remind users about 6' spacing at all times
Amenity Spaces e.g.	Limited,	Clear paths for ease	Provide adequate sanitizer. Remove furniture
breastfeeding rooms,	6' spacing	of passing attempt	or adjust spacing to maintain 6' spacing; If
chapels, etc.	6' spacing	to maintain	furniture is to be removed, ensure proper
		6' apart	storage/disposal is available; Remaining
			furniture should be vinyl upholstery if

			possible; may use floor tape or signage to guide movement
Fitness Centers	Limited, 6' spacing between equipment	Attempt to maintain 6' apart	Relocate or remove equipment to maintain 6' spacing; Provide signage to remind users to wipe down equipment <u>before and after</u> use; Disinfectant should be made available. Sanitizer stations outside rooms available for use upon entry.
Offices	1 per office	Normal	Maintain 6' spacing if visitors enter and disinfect surfaces after visit
Cubicles (defined as work areas with panel separation)	6' spacing*		*If cubicle configuration creates a distance of less than 6' between caregivers while sitting at their desk, panel height between caregivers should be a minimum of 24" above the work surface. Sanitizer and disinfectant should be available somewhere in the work environment (could be at a breakroom)
Benching Workstations	6' spacing	Clear paths for ease of passing attempt to maintain 6' apart	Remove furniture or adjust spacing to design 6' spacing; If furniture is to be removed, ensure proper storage/disposal is available; Remaining furniture should be vinyl upholstery if possible; panel height between caregivers should be a minimum of 24" above the work surface
Stairs	Standard Use	Normal	Maintain clear distance; Sanitizer stations available for hand sanitation prior to door and handrail use. Ensure Routine surface disinfection by staff at least daily.
Elevators	1-2 per car, 6' spacing	Enter right, exit right	Use floor tape and/or signage to guide movement; Sanitizer stations available for hand sanitation prior to call

DOC ID HHCMPA192020	Effective Date: June 4,	Page 10 of 5
	2020	

			button use. Routine surface disinfection by staff at least daily.
Drinking Fountains	Restricted, <u>not</u> recommended	Restrict Use	Recommend Valve Off to eliminate use; maintain regulatory testing
Restroom	Standard use	Clear paths for ease of passing attempt to maintain 6' apart	Disconnect air dryers, pull stall doors closed after use; utilize hands-free towel dispensers, utilize towels for door opening, locate trash cans by door. Sanitizer stations outside restrooms available for use upon entry. Handwashing with soap prior to exit of the restroom.
Supply / Storage/mail rooms/shipping and receiving docks		Clear paths for ease of passing attempt to maintain 6' apart	Sanitizer stations in/outside rooms/dock available for use upon entry. Routine surface disinfection by staff at least daily.
Conference Rooms	Restricted, <u>not</u> recommended	Clear paths for ease of passing attempt to maintain 6' apart	Remove furniture or adjust spacing to maintain 6' spacing; If furniture is to be removed, ensure proper storage/disposal is available; Remaining furniture should be vinyl upholstery if possible; Provide signage to remind users about 6' spacing at all times; Sanitizer stations outside rooms available for use upon entry. Routine surface disinfection by staff at least daily.
Lunchrooms / Lounge Spaces	Restricted, not recommended, maintain 6' spacing	Clear paths for ease of passing attempt to maintain 6' apart	Remove furniture or adjust spacing to maintain 6' spacing; If furniture is to be removed, ensure proper storage/disposal is available; Remaining furniture should be vinyl
